ABOUT ME

Senior Product Designer with a background in UX, mobile development, and human-centered computing.. Experienced in designing consumer-facing web and mobile products used by millions of users, with a specialization in mobile experiences, accessibility, and research-informed product design.

WORK EXPERIENCE

2022 – Present
Germany (Remote)

Invia Group

Senior Product Designer

- Responsible for UX/UI design across web, Android, and iOS travel booking products with more than 2M downloads, including a full redesign and relaunch of the outdated mobile app experience.
- Collaborated closely with product managers and engineers in agile product teams to deliver scalable user experiences.
- Conducted user research, usability testing, and iterative prototyping.
- Designed and maintained reusable design system components to improve product consistency and development efficiency.
- Improved platform accessibility by applying WCAG 2.2 Level AA standards across web and mobile experiences.
- Promoted to Senior Product Designer in Dec 2024 after contributing to high-impact product work, including the award-winning ab in den urlaub app, recognized as Germany's best travel portal app at the German App Award 2026.

2020 – 2021
Austria (Hybrid)

Raccoon Adventures

Freelance Designer & Android Developer

- Designed and developed a mobile application for interactive tours with a strong focus on intuitive Android user experiences.
